

BASLINE WATER®

Environmental Technician

Baseline Water Resource Inc. (Baseline Water) is a Calgary based professional services company specializing in water resource management and environmental consulting. We are currently seeking a full-time **Environmental Technician** to assist with projects in Western Canada. This position is primarily field based with flexible work options (hybrid work environment).

Job Description:

- Conduct groundwater and soil sampling at oil and gas facilities, industrial well sites, and other commercial properties
- Conduct rising and falling head conductivity tests of environmental monitoring wells
- Provide geological oversight of water well drilling and completions
- Conduct constant rate pumping tests to assess water well yield potential
- Assist with private landowner water well tests and learn well systems through field mentorship
- Deploy remote telemetry systems, pressure transducers, flow meters, and other environmental monitoring devices
- Record field activity, input data, and assist with report compilation

Successful candidates should have the following qualifications and skills:

- Diploma or degree from a recognized institution in environmental science/technology, geology, hydrogeology, agrology, or water resource management
- One to two years of relevant work experience is an asset; however, new graduates are welcome to apply
- Exposure to hand tools, generators, environmental drilling rigs, carrying heavy equipment, and working in an industrial environment
- Willing to work flexible hours, travel, and undertake fieldwork throughout the year, sometimes on short notice
- Excellent communication skills, with strong attention to detail
- Experience with common industry safety practices
- Proficient computer skills (Microsoft Office)
- Valid driver's license and a clean driving record
- Must have legal authorization to work within Canada

Baseline Water offers an opportunity to advance your career in a workplace that fosters respect, quality, and collaboration. The work we do is interesting and diverse. Participation in client interactions, the regulatory process, and project management will provide a breadth of experience that exceeds other junior positions.

BASLINE WATER[®]

Baseline Water recognizes the professional development of motivated, forward-thinking candidates. This position offers:

- Flexible schedule within an accommodating work environment (hybrid/remote options)
- Mentorship and training program
- Competitive salary
- Comprehensive benefits package that includes a health spending account
- Performance based bonus and share ownership opportunities
- All safety courses and personal protective equipment

Please submit your resume and cover letter to info@baselinewater.com. This position will remain open until the ideal team member is found. We thank all applicants; however, only candidates chosen for an interview will be contacted.
